Cotton Crop of 1857.—Commercial Prospects. This important crop, to the South, and fast becom-

expressed about the growing crop. correct comparison of crops, in growth, blooming and yield, can only be made by reference to facts, embracing a series of years. Many planters have kept journals for years, which embrace much valuable information, but they have not been generally

published. The blooming is now considered an era in the progress of the crop, and is a fact often referred to, for the purpose of fixing the question of a late or early crop. A planter of Chambers county, in Alabama, adjoining Georgia, in lat. 33 deg., and long. 3 deg. W. from Washington, has kept a record of the first bloom for 14 years, which is here inserted, with the yield of each year, as shown by the commercial

tables. Times of first blooms as follows.

1857—June 17..... This is from the same plantation, and under the same general management, and in the latitude of Lake Providence, La.

The extremes in the blooming dates are the 7th and 24th of the month, and the average for the 14 years is the 15th day of June for the first bloom.

This year, 1857, is the 17th, and instead of being a month later, is only two days later than the average for 14 years, and is earlier than the years 1856, 1854, 1850, and 1846.

One of the largest crops ever made was in 1852, when the first bloom was on the 17th, precisely the date of this year. The earliest bloom in the 14 years was in 1849, which was the 7th, but the yield that year was 700,000 bales less than 1848, the year be- oats. The advance in hay, which is already much derive no benefit fore, when the first bloom was on the 16th.

It is generally reported that the crop now cultivated, so far as the stands, quantity planted and condi-

The largest crop ever grown was in 1855, when the first bloom was on the 14th, being three days carlier than the bloom of this year, and only one day before the average time.

These dates are not from the Mississippi river or its tributaries, which would be more satisfactory to our immediate acquaintances. Our Arkansas friends have a large interest involved in this question, and we regret we have no reliable facts on this point, gathered from the Arkansas river. That rich, alluvial valley, where our Nashville friends are planting, ascertained facts, therefore, no correct statement can be made to fix the average date of blooms on that later would be a fair allowance for the difference in latitude. We would then have the 15th of June as for latitude 34 deg. in Arkansas.

The report of this year, in the Arkansas valley, for the first bloom, is 24th or 25th, being only two blooms.

It seems that in lat. 33 deg. there were three years 22d, 23d, and 24th; and average crops were made in each of these years.

We infer, therefore, that the crop is not as late as many suppose, and that nothing has happened yet which will prevent an average crop being made, and with a late frost, the crop may be large, quite large. The number of acres, now cultivated with the regularity of stands, will sus ain the opinion that 3,500,000 bales may be grown, which may be worth \$170,000,000, and the sugar crop \$30,000,000, making a yield of \$200,000,000 out of these two crops which will commence coming into market in our

Southern cities in six weeks from the present time.

From the blooming to the opening of cotton, will average about forty days, so that all the blooms previous to the 15th of July will be open by the 1st of September; and the blooms previous to the 15th of September ought to mature by frost. We have, therefore, about 55 days yet of a blooming season, and it is the opinion of many good observers that blooms enough may open in a day on an acre of land, when everything is favorable, to make 100 pounds of seed cotton; the average, however, may not be more than a third of that; still, this rapid production is a habit of the plant, and shows that a crop may be made in a short season, whenever the first yielding qualites are fully sustained by the season. In addition to the facts stated, we have the further disclosure now made, that so far as the crops of 1857 have matured, the yield is large.

The wheat crop will soon be gathered, and is known to be abundant all over the world. The grass crop is one of the finest ever grown. The oats are now ready for the reaper, and a better crop has not been in ten years. The corn crops in the lower latitudes are made, and are excellent. The sugar crop is nearly made, and will be entirely satisfactory .-The corn crops in lat. 34 deg. and 35 deg., are nearly made, and are good. The products of the garden are

These are encouraging statements, and help to sustain the opinion that the cotton crop, the great regulator of everything, will wind up the yield of the year in triumph.

We predict a season of great commercial prosperi ty. The price of cotton is high, but not higher relatively than lands, negroes, meat, mules and sugar .-The agricultural products of our country constitute a leading element in our national wealth. The advance in prices is no doubt attributable to the annual crop of California is a reality, and not a fiction .-

The cotton and sugar alone being worth \$200, 000,000, the whole productions of the year, which must be received and forwarded to their proper places, by the merchants and banks, must pay them an immense sum, and being well paid, must and will sustain their credit with ease and fine profits.

Mosquitos in New York - We have not lately seen that venerable personage, the oldest inhabitant, otherwise we would have obtained his affidavit or certificate, that within his recollection there never was in the month of July, in the city of New York, in Brooklyn, on Staten Island, or on the Jersey flats, such a countless host of such hard-billed, sharpbilled, and long billed mosquitos, as in the present said month of July. "They throng the air, they beyond numerical computation. Billions and trillions do not include a billionth or a trillionth of them .-Every blade of grass, every leaf of a plant, every upturned sod, everything and every place is alive with them. In the house and around the house, on the lounge and over the lounge, and alas! in the dormitory and through the dormitory, in and through and around and on and above and below every thing and

every place hum mosquitos. It is positively awful to think about, but a thousand deluge, for a season, put an end to human wickedness. It is lucky that mosquitos only live for a day-at least that's the poetic idea, and the only poetry there and by Druggists generally. is in the matter-or men, women and children would July 28.-275-2weod-48-2t. have to move through the air in some such sort of clothing as a diver's India Rubber apparatus, and New Yorkers would find mosquito bites nearly as fatal as folks do in Florida, according to a paragraph elsewhere given. Eighteen hundred and fifty-seven FOREIGN (OUTWARD AND INWARD) MANIFEST will be memorable for feats of mosquitorie. [Com. Advertiser.

In various counties of England "Protective Societies" have been formed of persons who pledge themselves not to purchase a thimbleful of sugar until it has declined four cents Per pound.

THE CROPS OF THE WEST IN 1857 .- The Cincinnati Gazette has the following estimates of the crop of 1857, compared with the production of 1849, the Court House, on Tuesday, August 4th, the foling important to the world, is giving concern to many in the nine great grain-growing States of the West. lowing business was transacted. pursuits at this time, owing to the various opinions The Gazette says the estimates are based on sound data in relation to increase of population and ratios It is a very commonly expressed opinion that the of production, and on the assumption that the crop present crop is about four weeks later than usual. A of this year will be a full average. Of course provi-

outlet to all markets. From the Detroit Free Press, of July 31st.

A Boy Eaten up by a Bear at Detroit. We have succeeded with some difficulty in learn ing the particulars of a shocking occurrence which took place on the Hamtramck marshes on last Tuesis on the line of lat. 34 deg. and long. 15 deg., being day, in which a boy, eleven years old, was actually leaten up alive by a bear, within sight of the city.—

There being no other business, the recting adthe above register was kept. In the absence of well The circumstances of the case are as follows :- A man named Joseph Rademacher, a German, living on Macomb street, between Rivard and Russell, went river. The presumption is, however, that a week out on Tuesday morning, in company with a little brother, to pick raspberries. They carried their dinners with them, and went some five or six miles out, and others, to our facilities for executing with promptness latitude. We would then have the 15th of June as the average for latitude 33 deg. in Alabama, and 22d before commencing their day's work. Rademacher and in a superior manner, Job Printing in all its varieties, MEARES & CO., DR. A. O. BRADLEY. and Drug deposited his dinner basket and coat on the ground, and solicit a share of their patronage. Having gone to con and employed himself for some time in picking here siderable expense in fitting up our lobbing Establishment. May 5th, 1857. and employed himself for some time in picking bet- siderable expense in fitting up our Jobbing Establishment, ries, when, his attention being attracted by a noise, we are prepared to execute all kinds of Plain and Ornamen; or three days latter than a supposed average date for he looked around, and, to his intense astonishment, tal work, such as Ball Tickets, Programmes, Cards and Cirsaw a large she bear, accompanied by three cubs, culars of every description; also Pamphlets, Bill Heads, engaged in devouring his dinner. It was but the Bills of Lading, Promissory Notes, Way Bills, Hand Bills, in fourteen, when blooms did not appear until the work of a moment to drop his basket of berries, and etc., etc., with neatness and on reasonable terms. hurry, with his young brother, away from the spot. He saw two boys not far from him when he left the spot, but said nothing to them. Before himself and brother had got a safe distance, they heard terrible overtaken by one of the boys, who came rushing after them in a bewilderment of fright, screaming that the bear was eating up his brother. Rademacher received this intelligence in utter dismay, and took to year and one month. his reels with a will, followed by the two boys, and deserting the sufferer to his fate. The cowardly race soon brought them to the city, when they spread the alarm and a large product of the city and a large pr alarm, and a large party was quickly formed for the rescue, which proceeded to the scene of the disaster, accompanied by Rademacher and the father of the unfortunate boy.

A long search resulted in finding the remains of the of John and Sarah L. Nutt, aged 1 year 7 months and 6 boy, the hear having eaten up about half of the corps, days. and buried the rest for a future meal. Remnants of his clothes were found scattered around, together with Rademacher's coat, torn to pieces. A general hunt was commenced with a view of finding the bear, which has been continued up to the present time without success. The boy was Irish or German we are not certain which. His name also we have been unable to learn, but shall ascertain it to-day .-His brother, a boy of thirteen, stated that they almost stumbled over the bear before they saw him at all, when he suddenly turned with a savage growl and seized the one who was nearest. A word of warning from Rademacher when he commenced his flight would have saved the boy, but he was too frightened to do anything but run.

The bear was a large and powerful one, and must have been excited to great hunger to commit so bold a deed. The contemplation of such an occurence, happening almost within the limits of a city of 70,-000 inhabitants, is sickening and terrible. Wild bears have become a rarity in most parts of the State, yet we are visited in the very metropolis by one that perpetrates a deed that belongs to the early annals of our history. It is to be hoped that such visits will be rare in future.

DIAMOND CUT DIAMOND.—The following from the New York Sun is about the best thing of its sort we have read for many a day :

A couple of patent "safe" sharpers got hold of a supposed greenhorn, yesterday, near one of the hogold crop of California. We are thus increasing our tels, whom they found to be so extraordinarily vermoney, which is the measure of price which enlarges dant that caution on their part was entirely laid aside. as the measure grows. If this were paper and not Greeny was ready enough to go it blind on their gold, the disasters of 1838 might follow, but the gold "safe," but his wife had got all his money, and he wanted a good pretext to get it out of her. So he The prices of produce now are sustained by a solid borrowed a gold watch of the sharpers, in order to gold foundation, and not by printed paper as they show it to his wife as a desired purchase -entered the hotel-stepped out of another dcor-and the sharpers have not seen him since.

" Reduced by Dyspepsia to a mere Skeleton."

CURED BY "BURHAVE'S HOLLAND BITTERS." Mr. A. Matchett, a trader probably as well known as any man in Western Pennsylvania, states as follows: "I met with a farmer in Armstrong county who was reduced by Dyspepsia to a mere skeleton; I persuaded him to buy a bottle of Ecrhave's Holland Bitters, believing it would cure him. Meeting him some months after, what was my astonishment at finding him a hale, hearty man; he told me he now weighed 200 pounds, and that this wonderful change had been produced by Boerhave's Holland Bitters, to which he attributed solely his restoration."

See advertisement in another column.

BŒRHAVE'S HOLLAND BITTERS, THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER OMPLAINT, WEAKNESS OF ANY KIND, FEVER

AND THE VARIOUS AFFECTIONS consquent upon a disordered STOMACH OR LIVER, such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others, effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, l now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of

ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.
NOTICE.—Whoever expects to find this a beverage will

will prove a grateful aromatic cordial, possessed of singular The great popularity of this delightful Aroma has induced many imitations, which the public should guard against pur-

imitations.

Sold at \$1 00 per bottle, or six bottles for \$5 00, by the sole proprietors, BENJAMIN PAGE, JR. & CO., Manufacturing Pharmaceutists and Chemists, Pittsburgh Manufacturing Pharmaceutists and Chemists, Pittsburgh, cording to quality.

REVIEW OF THE WILMINGTON MARKET.

Cotton, B bale...... 1 50 a 0

FOR THE WEEK ENDING AUGUST 6th, 1857. The recent rains have caused considerable of a rise in both branches of the river, but as yet very little produce has been brought in. The scarcity of vessels operates materially on at \$3,25 for dip, and scrape \$1,60. Tar \$1,25. Resin \$1,20 the market, (but four or five having arrived within the past | and \$1,25. Spirits Turpentine 41 and 42 cents, two weeks,) and the transactions have been meagre. We give below all the sales that we hear of: TURPENTINE .- Our review of Thursday last left the market in rather a depressed state, but since Saturday there has

advance of 1) cents. The small number of vessels arriving, 18 cts. Lard, 14 to 15 cts. however, renders it difficult of shipment, and causes shippers generally to keep out of market. The quantity received has been quite small, and the sales for the week ended this morning reach only 2,694 bbls., as follows: Vir. Yel. Dip. 363......\$3 75......\$2 75......

Saturday... 396...... 3 75...... 2 80..... 1 50 Monday... 911...... 3 75...... 2 85..... 1 50 Tuesday.... 493....... 3 75....... 2 85...... 1 50 Wednesday. 531...... 3 75...... 2 85...... 1 50 Spirits Turpentine.—The market ruled steady at last Thursday's quotation up to this morning, when there was considerable activity manifest, and up to the time of closing our review prices had advanced to 41 cents per gallon. The Aby notified to come forward and make immediate pay- receipts for the week just ended have been meagre, and the small parcels now offering higher rates are asked. Sales as A. H. VanBokkelen. follows:

Friday..... 250 bbls. at 41 cents per gallon. Saturday.... 500 " " 41 " " Monday..... 40 " " 40 Do..... 600 " " 41 Wednesday ... 400 " 41a415 Thursday 450 " Do..... 67 " Do..... 200 "

Rosin .- Since our review of Thursday last, the market town and country trade, and offers them at as low prices as any other store in the place. Among them may be found yesterday, when 2,000 bbls. sold at \$1 25 for large bbls.; and Aug. 3.—Schr. Wo this morning 300 do. at \$1 20 for medium. The continued Worth; with mize. scarcity of shipping has caused freights to advance, which has operated materially against this article, and prices have a T. C. & B. G. Worth. downward tendency. We quote at \$1 25 for large size bbls. In No. 2 there has been nothing done that we hear of, to G. W. Davis: with mdze. and quotations are nominal. See table. For No. 1 the market has ruled about the same as noted in our review of Thurs- VanBokkelen. day last; it must be of the best quality pale to bring our highest figure. We quote sales at prices ranging from \$3 to \$6 per bbl., as in quality. TAR-Has been in rather more enquiry from shippers dur-

ing the past week, and has gone up 5 cents. Only two or three small lots have been received, and taken at \$1 45 per & Savage; with naval stores. bbl .- parcels would find quick sale at this figure. BEEF CATTLE AND SHEEP No beeves have been brought in for a week or two past, and the supply in butchers' hands is very small. We continue former rates-5 a 6 cents per lb. for grass fed, as in quality. Very few Sheep arriving, and in small stock; in demand at \$1 50 to \$2 25 each, as in Coffee-There is a fair stock of nearly all descriptions

on market, and we note merely a retail demand. See table for quetations. CORN MEAL-None arriving from the country, and the supply on market is quite small. We note a fair demand, with sales in the small way at \$1 25 per bushel, in lots to

EMPTY BARRELS-In the absence of receipts for several weeks past the supply of Spirits Turpentine barrels on market has become somewhat reduced, though fully sufficient for present purposes, as we note very little demand. We quote second hand at \$1 75 a \$1 90 each, as in quality. A lot of 208 inferior second hand ones sold at auction on Saturday at \$1 32h a \$1 62h each. FLOUR-Since our last the market has ruled inactive, as purchasers do not seem disposed to operate to any extent at present prices. Some few parcels of new have been brought & Pritchett; with naval stores.

in, and we note smail sales at \$8 25 a \$8 50 for superfine, and \$8 70 a \$9 per bbl. for family-the market closing at lowest figures, and has a further downward tendency. receipts continue to be confined to small parcels, and the stock in store is light, though sufficient for present purposes. FISH-None on market with the exception of Herring, for which there is little or no demand. See table for store rates, in quantities as wanted.

THE WILMINGTON ICE HOUSE will be opened for the delivery of Ice every morning at Sunrise, closing at Sunset, except on Sundays when it will positively closed at 9 One-nair payable in advance, balance at end of the session.

TICKETS can be procured and DEPOSITS made in advance by those who desire to avoid the annoyance of making change.

ICE for the country packed and forwarded as directed.

ICE furnished to the sick poor free of charge, when directed lower than a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, and rates are 10 a 15 cents has had a like tendency here, are required as postage on the recipe, and the requires each applicant to inclose him one shilling—three cents to be returned as postage on the recipe, and the required as postage him one shilling—three cents to be returned as postage on the recipe, and the recipe him one shilling—three cents to be returned as postage on the lower than quoted in our last. Sales on Friday and Satur- is sent from No PLACE but No. 19 Grant street, Jersey City, day of small parcels (300 bushels) at \$1 55 a \$1 60 for white, as in quality. On Tuesday some 10,340 bushels changed June 12

hands on private terms, -believed to have been at \$1 45 for red, and \$1 55 for white. [Some other parcels are now expected, when it is to be hoped prices will be made public, as we are unable to give a correct report of the state of the It should be understood that our quotations generally epresent the wholesale prices. In filling small orders, highmarket when transactions are made on private terms.]
HAY-In the absence of receipts there has been nothing done in this article for several weeks past. The stock in

dealers' hands is fair, and we note merely a retail demand .-Quotations in table are nominal. LIME-Is in fair supply, with a limited enquiry, and no sales except in the small way. See table for quotations.

Molasses—There has been little or no demand for this article during the week, and the stock of Cuba remaining in first hands is fully fair. We quote from wharf at 53 a 54 cents per gallon, in quantities to suit.

Potatoes-Irish have been brought in rather more freely

the past week, and have declined. We quote from carts at

70 a 85 cents per bushel, as in quality.
PREVISIONS—BACON—The market continues to rule exceedingly firm for N. C. cured. None of consequence coming in, and the stock is confined to a few small parcels in retail ers' hands. Only one small lot has been brought in, and taken at 16 cents for shoulders and 17 cents per lb. for sides -being a shade advance. No sales of hog round, and nominal at 17 cents. The stock of Western make has also become materially reduced in the absence of receipts, and we note an active demand at present existing. We quote from store at 13½ a 14 cents for shoulders, and 15 cents per lb. for sides .- LARD-Both N. C. and Western make is in active demand, and as none has been received during the past week, the market has become almost entirely bare. We quote the former at 17 a 18 cents, and the latter at 16 a 17 cents per lb., as in quality.——PORK—There has been but little doing, owing mainly to the exceedingly light supply on market. We quote small sales of Northern Mess from store at \$26 a \$26 50 per bbl.—which is an advance on previous

SALT-We have nothing new to notice in either descripion. There is very little demand for Alum, and we note a good supply on market ;-selling from atore at 30 a 35 cents per bushel, in lots to suit. Liverpool ground is in small stock, with an active enquiry existing. Only one lot of 500 sacks received coastwise since our last, and sold from wharf at 971 cents a \$1 05 per sack, as in quantity. SHINGLES-Are without material alteration; demand

limited, and receipts light. Sales of about 250,000 Common at \$1 50 a \$2 25 per M., as in quality. No sales of Contract. TIMBER-Continues to arrive sparingly; there is, however, very little demand except for short, which sells readily at fair prices. We quote small sales at prices ranging from \$5 to \$9 per M. FREIGHTS-Owing to the scarcity of shipping, produce is accumulating on the wharves, and rates coastwise have materially advanced. To Boston, New York and Philadelphia

three or four vessels have been taken up at our quotations. NEW YORK, Aug. 4.—Flour is buoyant; sales of State brands at \$6 25 to \$6 45, Ohio \$6 60 to \$7 45, Southern \$7 45 to \$7 75. Old Wheat is slightly lower, new has

slightly improved. Mixed corn 874c. BALTIMORE, Aug. 4 -Flour and wheat are unchanged. White corn S6 a 93c., yellow S6 a SSc. FAYETTEVILLE, August 3 .- Bacon 16 @ 164 cents .-Cotton-Fair to good, 00@141; ordinary to mid., 11@121. Flour-Family, \$\frac{1}{2}\$ 25@8 50; Superfine, \$\frac{1}{2}\$ 8@0 00; Fine, \$\frac{1}{2}\$ 50@\$0 00; Scratched, \$7 00 @ 0 00. Corn, 1 25 @ 0 00; Wheat, \$0 00@0 00; Oats, 60@00; Kye, 1 00@ 0 00. Lard, 171@18. Salt-Liverpool, (Sack) \$1 25@\$0 00. Turpentine,

Yellow dip, \$2 25 @0 00; Virgin, \$3 25@0 00; Hard \$1 05 @0 00; Spirits, 37c. Bacon unchanged. Cotton-Sales on Thursday last ranging from ordinary to fair; sold round at 143. Flour-No holding it still in price. No other changes worthy of notice. LIVERPOOL, July 18th .- Cotton-Sales of the week 19,000 bales, including 10,000 bales for speculation and 5,000 for export. All qualities have advanced 1-16; middling qualities have improved most. Holders offer freely but show no disposition to express sales. Surat and Brazilian Cotton has advanced id. Orleans fair 84; Mobile fair 84; Upland

New Orleans tres ordinaire at Havre quoted at 118fr. Manchester advices continue favorable; all qualities of manufacturing considerably advanced. Breadstuffs.-The market is very dull, and all qualities have slightly declined. Corn is steady. Richardson, Spence & Co. quote:—Flour is very dull and prices have de-clined 1s. Western Canal Flour 30s. a 31s; Philadelphia and Baltimore 31s; Ohio 32s a 32s 6d. Wheat is dull at a decline of 2d. Some circulars quote a decline of 2d a 4d; red 8s. 3d. a 9s. 4d; white 9s. 4d a 9s. 10d. Corn is quiet.

Provisions are dull. Beef generally closed buoyant at the previous advance. Pork is dull. Bacon is dull. Lard is also dull. Money Market-London, July 17 .- Consols for money 914. The market is slightly easier.

Consols for account quoted at 913 a 914.

The buillion in the Bank of England has increased £75,-The bank rates have been reduced to 54 per cent.

THE LATEST. LIVERPOOL, July 18, 2 P. M.-Richardson, Spence & Co. quote: -- Cotton generally closed with an advancing tendency. Under the Persia's advices the market is firmer, but not quotably higher. Estimated sales of to-day 9,000 bales. Breadstuffs are quict. London, Saturday, Noon .- Consols close at 913 a 975 for

money and 92 for account. BEAUFORT, July 29 .- Bacon hams 17 to 18 cents .-Hoground, 15 cents; Corn, 90 to 1,00 per bushel. Corn Meal, \$1 20 to 1 30 ; Flour, Superfine \$8 50, Extra family \$9 to 9 05; Candles, 18 to 20 cents per 1b.; Coffee, 12t to i5 cents: Hides, from 8 to 10 cents per lb.; Iron, 6 to 7 cts.; Lime, \$1 50 to 1 75 per bbl.; Molasses, 75 to 80c.; Turpentine, dip \$2 60 to 2 70; Scrape, \$1 60 to 1 70 per bbl.; Spirits Turpentine 37 to 38 cents; Tar \$1 25 to 1 50; Rosin \$1 to 1 10 per bbl; Oil—Whale 70 to 73c; Speam, \$1 75 a \$2; Linseed, \$1 10 to 1 25; Pork—Mess, \$26 to 27; Prime \$25; Rice, 5 to 6 cents; Salt, \$1 25 to 1 50 per sack; Sugar, Porto Rico 14 to 15 cents, Clarafied 16 to 17, Crushed

8 cent per lb. WASHINGTON, N. C., July 28, 1857. NAVAL STORES .- We have no change to note; but very small quantities of Turpentine arrives, and that is taken

CORN-Has been sold at 80 cents per bushel. WHEAT-none in market. TARBORO', July 31 -- Turpentine --- Dip, \$2 20 to 2 25. ket in rather a depressed state, but since Saturday there has Scrape, 40 to 45 cts per 100 lbs. Tar, \$1 00 to 1 10. Corn, been a better feeling and the price of yellow dip shows an \$4 00 to 4 50 per bbl. Cotton, 11\frac{1}{2} to 12 cts. Bacon 16 to

A RETIRED PHYSICIAN WHOSE sands of life have nearly run out, discover-ed while in the East Ludies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and GRAIN.—In Corn we have no receipts to notice,— in the absence of which the supply on market has become materially reduced. There is considerable firmness in the market,

He had heard much of the wonderful restorative and healing and a few cargoes would readily command high figures, the qualities of preparations made from the East India Hemp, stock in dealers hands being barely sufficient for their immediate uses. A lot of 2,500 bushels (in bags) of former receipts, sold from store on Friday last at \$1 15 per bushel, and 15 cents for bags. On Saturday, 750 bushels damaged sold at auction at prices ranging from 90 cents, to \$1.02 cents and of sufferers in all parts of the world, and he has a remedy for his child. He studied hard and succeeded in realizing his wishes. His child was cured, and is now alive and well.
